## Spending and Savings Accounts

UW Health Northern Illinois offers pre-tax savings and spending accounts to eligible employees. As you review the benefit offerings available to you, it is important to understand the details of the plans and how to maximize your pre-tax savings by enrolling in one or more of these accounts.

### Health Savings Account (HSA)

Employees who enroll in the UW Health Northern Illinois high-deductible health plan (HDHP) option must enroll annually in the health savings account (HSA) through UW Health Northern Illinois. The HSA allows employees to set aside pre-tax dollars to use towards eligible health care expenses that are not covered by insurance, such as deductibles, copays, and prescriptions.

UW Health Northern Illinois makes contributions to an employee’s health savings account throughout the year. NI will contribute \$500 for single and \$1,000 for family (annually, prorated to eligibility date). Employees can make additional contributions up to the annual limit of \$4,400 for single and \$8,750 for family. Employees can change their contributions at any time throughout the year. Employer contributions are prorated and made on a bi-monthly basis to the HSA account.

## Retirement Benefits

### 403(b) Plan

Eligible employees can participate in the 403(b)-plan beginning the first of the month following their first day of employment.

#### Enrollment

UWNI will automatically withhold three (3%) of your gross wages to be deposited into the plan. You have the option to “opt out” by completing the opt-out form or by contacting T-Rowe Price at (800) 922-9945.

Participants may defer up to the IRS limit and if age 50 or older by the end of the plan year may contribute an additional catch-up contribution.

### Employer Contribution

#### Per Pay Period Match Contribution

Employees may receive a per pay period matching contribution to their 403(b) plan of up to 3% of their salary, prorated based on their years of service.

Years of Service	Maximum Matching Contribution
Less than 1 year	None
Between 1 and 5 years	20% of 3% = 0.6%
Between 5 and 10 years	35% of 3% = 1.05%
Between 10 and 20 years	75% of 3% = 2.25%
20 or more years	100% of 3% = 3%

#### Annual Match Contribution

Employees are eligible for a discretionary annual contribution to their 403(b) plans. A percentage of their annual pay will be used to determine the amount of the contribution, which is based on years of service.

Years of Service	Maximum Matching Contribution
Less than 1 year	0
1 year	1%
2 years	2%
3 years	3%
4 years	4%
5 or more	5%

### 457(b) Plan

Executives are eligible to participate in a 457(b) deferred compensation plan.

#### Enrollment

The plan allows executives to make pre-tax supplemental retirement savings contributions up to the IRS calendar year maximum. This plan does not allow for age 50 catch-up contributions.

Employees must re-enroll in the plan each year.

## **Roth Contributions**

A Roth 403(b) deferral is an additional way to save for your retirement through the plan. Like a traditional pre-tax 403(b) deferral, you elect how much of your salary you wish to contribute. Your Roth 403(b) contributions plus your traditional pre-tax 403(b) contributions cannot exceed annual IRS limits.

Unlike a traditional pre-tax 403(b) deferral amount, the Roth 403(b) allows you to contribute after-tax dollars and then withdraw tax-free dollars from your account when you retire.

A Roth 403(b) contribution could be a good option for: younger employees who have a longer retirement horizon and more time to accumulate tax-free earnings; highly-compensated individuals who aren't eligible for Roth IRAs but want a pool of tax-free money to draw on in retirement; and employees who want to leave tax-free money to their heirs.

## **Supplemental Executive Retirement Plan**

Executives are eligible for a non-qualified 457(f) deferred compensation program designated by the Board. Annual contributions made at the beginning of the fiscal year are held as assets of UWHC until the participant becomes vested. Participants become vested in contributions the last day of the fourth fiscal year following the fiscal year the contribution was made.

Accelerated vesting may occur due to death, disability, an involuntary termination other than for cause, age 65 or the specific date the participant elected prior to the first contribution which must be at least four years after the date of the initial contribution. Participants may choose from a menu of mutual funds to invest the contributions. Distributions occur in a lump sum payment after contributions are vested.
