UW HEALTH JOB DESCRIPTION

ELECTRICIAN				
Job Code: 410042	FLSA Status: Non-Exempt	Mgt. Approval: W. Abbott	Date: 8.2018	
Department: Maintenance & Engineering Services		HR Approval: K. Sawyer	Date: 8.2018	
JOB SUMMARY				

The nature of the services provided by this position may affect UW Health Patients, Visitors, Employees and departments. A wide variety of both internal and external relationships are involved in carrying out the duties of this position.

This position performs journeyman electrical duties for UW Health Electricians under the supervision of the Maintenance and Electrical Trades Supervisor for the Maintenance & Engineering Services Department at UW Health.

Maintenance & Engineering Services is committed to the highest standard of Customer Relations principles. Team members will serve as role models by practicing exemplary behaviors when working with patients, visitors and fellow staff members. The Hospital and Clinic operations environment requires quicker than normal response to system and equipment failures. The hours worked often require emergency response, frequently without immediate direct assistance from supervisor.

MAJOR RESPONSIBILITIES

Layout and inspection of electrical projects

- Read blueprints.
- Compile material lists for project.
- Design and layout work in shop or on job.
- Equipment and shop upkeep.
- Organize materials.
- Inspect the work of outside contractors.
- Assist outside contractors in the layout of their projects.
- Participate as needed in design review and project coordination meetings.
- Coordination of projects with other trades to minimize impact to the facility.

Remodeling of UW Health buildings

- Remove existing electrical material that is being replaced or is no longer needed.
- Install electrical circuitry including panelboards, circuit breakers, conduit, wire, switches, fuses, receptacles, lighting fixtures, motor starters, etc.
- Make electrical connections to heating, ventilating, air conditioning, laboratory and other fixed and movable equipment.
- Install special electrical systems such as fire alarm, class bell, audio, audio-visual, control, clock, emergency, data, leak detection, nurse call, and alarm systems.
- · Erect scaffold as needed.
- Work from and operate aerial lifts.

Maintain and repair electrical equipment and systems

- Conduct preventive maintenance on assigned electrical systems such as elevators, fire alarm, emergency power, and variable speed drives.
- Repair electrical circuitry, apparatus and equipment as listed in B2, B3, B4.
- Inspect and repair equipment such as, surgical lights, coin changers, vending equipment, etc.
- Participate in the 24/7 emergency On-Call rotation

Understand reports, policies and recordkeeping

- Understand the Policies & Procedures of the Maintenance & Engineering Department as well as those of UW Health.
- Understand preventive maintenance and repair work reports to include material, FMIS/Synergen records, etc.
- Understand policies for and create reports for material and equipment stocking and repairs.
- Understand policies and procedures for timekeeping.

Other duties as assigned
