

UW HEALTH JOB DESCRIPTION

STERILE PROCESSING TECHNICIAN II WEEKENDER

Job Code: 420005	FLSA Status: Non-Exempt	Mgt. Approval: E. Austin	Date: December 2019
Department: Across the System		HR Approval: J. Olson	Date: December 2019

JOB SUMMARY

The Sterile Processing Technician II Weekender is responsible for the effective and efficient decontamination, cleaning, sterilization, and reprocessing of patient equipment, surgical instrumentation, and medical supplies. Working under general supervision, this position exercises independent judgment.

The Sterile Processing Technician II Weekender may be assigned to any of the following locations: University Hospital, American Family Children's Hospital, Digestive Health Center, The American Center, Madison Surgery Center, Transformations, or associated outpatient facilities. The Sterile Processing Technician II Weekender requires wide-ranging knowledge of ever-changing instrumentation, equipment, and techniques. An extensive reprocessing skill set is required for success in this position.

MAJOR RESPONSIBILITIES

- Specific areas of work may include surgical instrumentation, outpatient instrumentation, patient care equipment (IV pumps, epidural pumps, SCDs, Respiratory Therapy equipment, etc.)
- Leads other employees and prepares staffing schedules to provide coverage for assigned shifts
- Provides support to any or all of the following operating room service lines: Anesthesia, Burn, Perfusion, Cardiovascular, Thoracic, ENT, Ophthalmology, Plastics, Trauma, General Surgery, Urology, Kidney, & Liver Transplant, OB/Gynecology, Neurosurgery, Orthopedics, and Peripheral Vascular
- Cleans, decontaminates, inspects, and assembles a high variety of complex surgical instruments, which may include complex endoscopes such as duodenoscopes, sigmoidoscopes, and colonoscopes, Da Vinci robotic instruments, organ transplant instruments, and delicate ophthalmic instruments
- Operates and troubleshoots cleaning, disinfection, and sterilization equipment, including cart washers, sonic washers, pasteurizers, washer/decontaminators, tee probe disinfectors, steam sterilizers, Hydrogen Peroxide (H₂O₂) sterilizers, Ethylene Oxide sterilizers, and scope washers such as Advantage, DSD201, DSD Edge, and Scope Buddy
- Demonstrates proficiency in loading procedures and interpretation of the various graphs, printouts, biological tests, and integrators of sterilizer operations
- Cleans autoclave doors, gaskets, and drains
- Identifies problems of the sterilization equipment by review of the machine's output and initiates corrective action
- Operates other equipment to include washer decontaminators, sonic cleaners, and endoscopic lumen cleaners
- Uses pasteurizers and automatic endoscope reprocessor for high level disinfection
- Completes autoclave records, places the biological tests and integrators on each load, and delivers finished loads to cooling locations
- Accurately transfers sterile items to the sterile storage area and safeguards the integrity of sterile supplies through proper handling
- Maintains shelf-life awareness, rotates stock, and ensures outdated items are pulled
- Demonstrates knowledge of multiple implant systems; inventories the systems and communicates purchasing needs
- Assists with monitoring/tracking non-sterile inventory to ensure replacement supplies are available when needed
- Advises customers on proper cleaning, packaging, and sterilization techniques. Ensures tracking paperwork and customer charges are correct.
- Ensures the instrument tracking database system is maintained and accurate
- Maintains an audit trail for the Reprocessing budget and accountability purposes

ALL DUTIES AND REQUIREMENTS MUST BE PERFORMED CONSISTENT WITH THE UW HEALTH PERFORMANCE STANDARDS.
