

UW HEALTH JOB DESCRIPTION

Physician Data Analyst - DFMCH

Job Code: 440075	FLSA Status: Exempt	Mgt. Approval: M. Riley	Date: Feb 2019
Department: Family Medicine		HR Approval: A. King	Date: Feb 2019

JOB SUMMARY

The Physician Data Analyst reports to the DFMCH Director of Physician Compensation, Billing, and Reimbursement. This position is responsible for providing analytic support related to Provider compensation and productivity. Through knowledge of healthcare industry and business workflows, the incumbent works collaboratively with business, clinical operations and Information Systems teams to evaluate processes and address needs related to physician compensation, and productivity. Responsible for supporting professional billing data/metrics; including revenue, capitation, provider production/measures, e.g. panel, ASA units, and RVU volumes, funds flow, and integrated financials.

Responsibilities include supporting data, work flow and data testing to assure timely and accurate completion of financial and productivity reports for the Department of Family Medicine. The individual actively participates in meetings and committees that include discussion about strategic and operational planning, budget, productivity, benchmarking and related financial reporting. Projects will require a broad knowledge of business, healthcare administration, fiscal management, program financial analysis, payer mix evaluations and planning. The individual must be detail oriented, extremely accurate, and knowledgeable in accounting, software applications, and interpreting analytical information.

MAJOR RESPONSIBILITIES

- Support provider production-based compensation plans and related reporting for physician practices. This includes data and reports that support the processes associated with the calculation, communication and reporting of compensation for physicians including but not limited to: provider production reports, primary care provider reports, general ledger information, payroll, compensation letters in PIMS, and financial statements.
- Communicate, calculate and review salary changes with physicians.
- Prepare monthly compensation reports for subset of physicians and monitor monthly salary based on compensation plan; maintain and coordinate payments for special incentives, such as non-compete, signing bonuses, etc.
- Coordinate quarterly reconciliations and payments for outreach per diems and other provider-specific agreements; prepare all accounting and audit work papers for physician compensation related activities.
- Provide project and committee support collaboratively, with other departments and business partners.
- Assist in the development of visual models that highlight opportunities to support strategic planning and initiatives, improve performance, project future demand, and advance UW Health goals.
- Assess business needs, evaluate processes, design/modify existing systems, test & implement solutions for new and existing physician compensation workflows and processes, and perform other projects to improve efficiency or adapt to new legal requirement
- Other duties as assigned.

ALL DUTIES AND REQUIREMENTS MUST BE PERFORMED CONSISTENT WITH THE UW HEALTH PERFORMANCE STANDARDS.
