UW HEALTH JOB DESCRIPTION

	IS Inte	ernal Auditor	
Job Code: 310035	FLSA Status: Exempt	Mgt. Approval: S. Houtakker	Date: January 2022
Department: Business Integ	rity - Internal Audit	HR Approval: S. Whitlock	Date: January 2022

JOB SUMMARY

Under the general supervision of the Director, Internal Audit, the Information Systems (IS) Internal Auditor is responsible for assisting in the reviews and evaluations of any operating areas of UW Health. The position contributes to overall operating efficiency by ensuring adherence to effective and efficient operating procedures and by evaluating systems of internal control throughout UW Health. The incumbent assists in assessing the risk of loss or impairment of system assets and recommends internal controls and procedures to the Director.

The IS Internal Auditor is responsible for assisting in the design and implementation of IS audit programs and communicates audit findings and recommendations as to the Senior Auditor and/or Director. The position assists in obtaining statistics and the information necessary to maintain an audit risk assessment system for all auditable areas. This individual must conduct audit work in compliance with the standards for the professional practice of internal auditing as identified by the Institute of Internal Auditors. He/she performs the role by demonstrating technical ability and an understanding of job expectations while working in compliance with organizational policies and procedures.

MAJOR RESPONSIBILITIES

Review and Evaluate Operating Areas of UW Health and Related Enterprise Partners

- Perform IS operational and financial audit assignments and other audit services identified by the Director of Internal Audit.
- Identify areas/activities requiring audit review through observations made during the course of audit assignments.
- Obtain an understanding of the systems of control for each auditable area by reviewing policies and procedures, communicating with staff, and observing processes.
- Assist in the design and completion of audit programs that adequately test effectiveness of controls, compliance to
 established policies and procedures, and compliance to federal and state laws and regulations by using standard
 audit techniques.
- Prepare and maintain completed audit workpapers, documenting the basis for the recommendations made relative to the audit assignments.
- Perform reviews in a thorough manner in order to propose meaningful recommendations.
- Complete assignments in an efficient manner with minimal interference with operations.

Communicate Audit Findings and Recommendations

- Describe each system examined to adequately identify controls, using acceptable documentation methods.
- Report all significant findings to the IS Internal Auditor Senior and/or Director of Internal Audit.
- Assist in preparing written reports for each audit conducted.
- Make timely evaluations of current audit procedures and goals and propose changes in them as situations warrant.

Obtain Statistics and Information Necessary to Accurately Maintain an Audit Risk System

- Collect accurate and consistent information needed to maintain a risk assessment system for all auditable areas, as established.
- Demonstrate knowledge of the risk assessment system by identifying valid information and significant changes.

Maintain Knowledge of Professional Auditing Standards

- Maintain awareness of changes in auditing principles and practices and related areas in order to maintain professional competence.
- Comply with the standards of professional practice and internal auditing as established by the Institute of Internal Auditors.

ALL DUTIES AND REQUIREMENTS MUST BE PERFORMED CONSISTENT WITH THE UW HEALTH PERFORMANCE STANDARDS.
